Notice Concerning Website Renewal

Fukuoka REIT Corporation (FRC) announces it has completely renewed its website.

FRC has strived to operate a website that is easy to understand and use for investors and other stakeholders. For 11 consecutive years since 2010, the website has received awards in Overall Ranking and Sector Ranking of the "All Japanese Listed Companies' Website Ranking" provided by Nikko Investor Relations Co., Ltd.

In this renewal, in consideration of further improvement of visibility and usability, the website is designed to display the real-time investment unit price in the upper right to enable investors to immediately see FRC's investment unit price. In addition, the actual dividend and forecast dividend will continue to be displayed at easy-to-see positions. Furthermore, in order to enable investors to immediately see disclosed information, a "Newsroom" menu is available for quick access to timely disclosure materials, information and updated history.

The large image shown on the home page is a collage of photos of our portfolio properties which fall under four different asset types. It was designed by a local Fukuoka designer and conveys FRC's diversity in being a general REIT and its characteristic of being a region-specific REIT.

With an aim to enhance the fairness and transparency of information disclosure, FRC will continue to promote timely information disclosure on its website while actively engaging in IR activities. We sincerely ask for your continued support and cooperation.
